## Of CWC

### Professional Design Team

An important factor in ordering the brands is the work of art. When a customer asks for a quote, he wants the artwork to be done quickly, the reality is that many companies only have a designer to do all that is art, and even worse they ask the mold factory to do it. This is happening every day in the Guangdong area. When you visit CWC, you will see 4 interior designers deployed to elaborate your artwork. The company offers designers an excellent wellness system, in return they return over 50 works of art on a daily basis.

## **Of Exposure**

We attend 4 exhibitions every year, 2 electronic fairs (spring and autumn edition), 1 gift HK & Premium exhibition and MEGA show. During each fair, we will publish new products developed with our customer. This provides our customers with the absolute security to promote these products in their region, with CWC, there will always be new products suitable for their market. The details of our stand are confirmed 2 months before the start of the shows. After confirmation, all customers will receive an invitation letter that says where and when. The fairs offer us a great opportunity to speak directly with customers. From time to time we talk about how more products can be developed, how costs can be better regulated and how we can help on more efficient procedures.
